

Environmental charter

We are happy to welcome you to our campsite. The preservation of the environment is at the heart of our concerns. Thus, we have implemented various actions to reduce the impact of our activity on nature while guaranteeing the well-being of our customers and staff. This charter presents our commitments and how you can participate in these efforts.

~ Our environmental commitments

1. Energy:

- Trips within the campsite are mainly done with the help of electric carts.
- Replacement of the majority of light bulbs with economical models (energy class A or A+).
- Installation of motion detectors to limit unnecessary lighting.
- Urban lighting has been replaced by LED lighting.

2. Water:

- Rainwater recovery for watering the plantations and supplying the toilets of the toilets.
- Taps equipped with pushers to reduce water consumption.

3. Rubbish:

- Selective sorting organized with specific points for glass, plastic and paper.
- Composter available near the garden for organic waste.
- Limitation of packaging and reduction of waste produced.
- Recycling of hazardous waste (batteries, light bulbs) at the reception.

4. Maintenance:

- Use of ecological, labelled or gentle chemical-based cleaning products.
- Preference for steam cleaning devices and modern materials to minimize the use of chemicals.
- The maintenance of the green spaces is carried out without pesticides with environmentally friendly products.

5. Biodiversity:

- Planting of local plant species to preserve the local ecosystem.

Environmental charter

- Watering is reasoned, carried out early in the morning, and the lawns are not watered.

6. General ecological management:

- Documents are digitized as much as possible to reduce the use of paper (e.g., e-mailing contracts, brochures, etc.).
- Water and electricity meters are read every month to analyze and improve resource management.
- The sheets used are exclusively washable.

7. Eco-friendly transportation:

- The staff mainly travels by scooter or electric cart to limit the carbon footprint.
- Information available at the reception on walking routes, cycling routes and bus schedules.

~ Your Participation for an Environmentally Friendly Stay

We invite you to take the following simple actions to contribute to our environmental efforts:

1. Energy:

- Turn off the lights when you leave a room or your rental.
- Close doors and windows when the heating or cooling is on.

2. Water:

- Report any water leaks to staff.
- Don't let water run unnecessarily or flush things down the toilet.

3. Rubbish:

- Sort your waste using the dedicated bins (yellow lid for recycling).
- Do not throw cigarette butts, papers or rubbish on the ground.
- Drop off hazardous waste at the reception desk and use the green bins for other waste.

4. Transport :

- Prefer non-polluting modes of transport (cycling, walking).
- Do not leave your engine running when it is stationary.

Environmental charter

~ Together for a Sustainable Future

We thank you for your contribution and participation in our efforts to protect the environment. With simple actions, we can all help preserve nature for future generations.
